MANAGING DIRECTOR'S MESSAGE

Making our vision come true. This is what we do.

Our Mission, Spirit, Values and Behavior are what separates us from other companies. They are the strengths that underpin our entire approach to responsible and ethical business conduct. At Sah Polymers, we never take these attributes for granted and we constantly remind ourselves of the values that makes us a great company to work for and do business with.

Asad Daud
Managing Director

About Us

Sah Polymers Limited is one of the pioneers in the manufacturing and exporting of Polypropylene (PP)/ High Density Polyethylene (HDPE) Woven Bags, BOPP Laminated Bags and Flexible Intermediate Bulk Container (FIBCs) in India. We have been in this business for over 25 years. This journey, governed by the principles of quality and customer service, has been remarkable in terms of range of products we've made and the quality we've delivered.

These accomplishments have been results of great hard work and dedication of the entire team and the state-of-the-art infrastructure along with persistent technical skill upgradations. It is the sheer strive for quality excellence that has been the main reason behind our long term association with our customers.

In this challenging voyage, we have acquired confidence and trust of the customers through supply of industry specific products at competitive prices with uncompromised quality and well-timed deliveries.

We cater to the packaging requirements of the following industries:

- Agro Pesticides Industries
- Basic Drug Industries
- Cattle Feed Industries
- Cement Industries
- Chemical Industries
- Fertilizer Industries
- Food Products' Industries
- Metal Industries
- Mineral Industries
- Paper Mill Industries
- Salt Industries
- Textile Industries
- Tyre Industries
- & Many More

PRODUCTS

PP/HDPE Woven Fabric Rolls & Bags

We are among the leading manufacturers and exporters of Polypropylene (PP) Woven fabric and bags in India. Our products are appreciated and quality is acknowledged not only by Indian customers but also by international customers. Persistent research development and innovation facilitated the manufacturing of products which have high strength-to-density ratio for durability and reliability.

The state-of-the-art infrastructure and quality inspection at every stage of manufacturing, delivers flawless products in circular and flat form, with an option of lamination. We can supply fabric ranging from 50 GSM to 140 GSM. We can provide fabric with width ranging from 45 cm upto 148 cm in circular form and from 90 cm upto 296 cm in flat form.

We can customise the products as per the requirement of the customers.

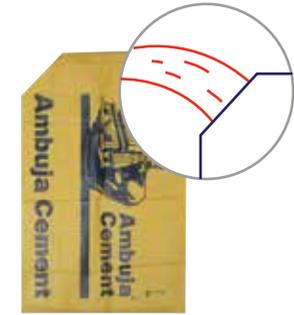

Our key products include

Unlaminated Bags

Laminated Bags

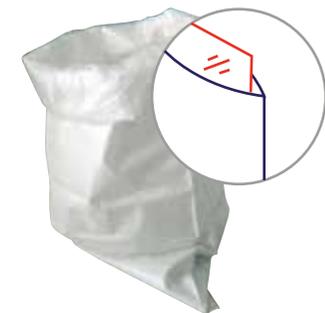

Valve Bags

Gusseted Bags

Perforated Bags

Liner Inserted Bags

Multi Stripe/Multi Colour Bags

Fabric Rolls

PRODUCTS

BOPP Laminated Woven Bags

The use of Biaxially Oriented Polypropylene (BOPP) laminated woven bags is gaining momentum in the packaging industry, due to its flatness, clarity and high quality picture printing which enhances the aesthetic appearance of the bags. We are manufacturing BOPP laminated bags for the packaging requirements of various industries in India and across the world.

PRODUCTS

PP Box Bags

PP Box Bags are ideal for bulk packaging. These bags safeguard the material, which is stored in these bags, from dirt, dust, humidity and moisture, especially when they are stored in open. Our product's strength and durability is exceptional considering its lightweight. Its moisture and tear resistant abilities results in long-lasting storage of the products of our customer.

We provide box bags ranging from 55 GSM upto 120 GSM in different colours, sizes and stitching patterns.

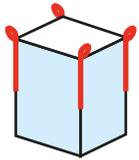

PRODUCTS

Flexible Intermediate Bulk Container (FIBC)

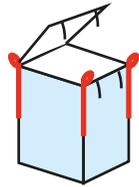

A Flexible Intermediate Bulk Container (FIBC) or bulk bag or big bag, is an industrial container made of PP fabric that is designed for storing and transporting dry, flowable products, such as sand, fertilizer, minerals and granules of plastic. The flexible fabric enhances the adaptability of the material in the container. We provide a wide range of FIBCs to suit the requirements of every customer.

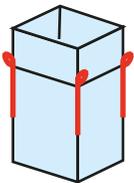

Filling System

Open Top with Hemming

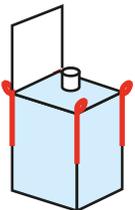

Tie - Down Flap

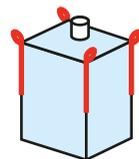

Duffel Top Skirt

Open Top with Drawn Cord

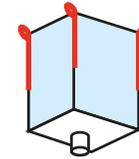

Filling Spout with Flap

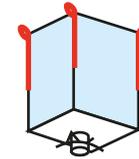

Filling Spout

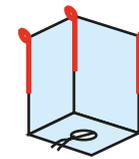

Discharge System

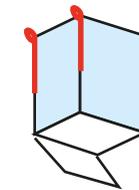

Discharge Spout

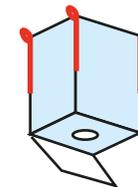

Discharge Spout with Petal Closure

Discharge Spout with Iris Protection

Full Drop Bottom

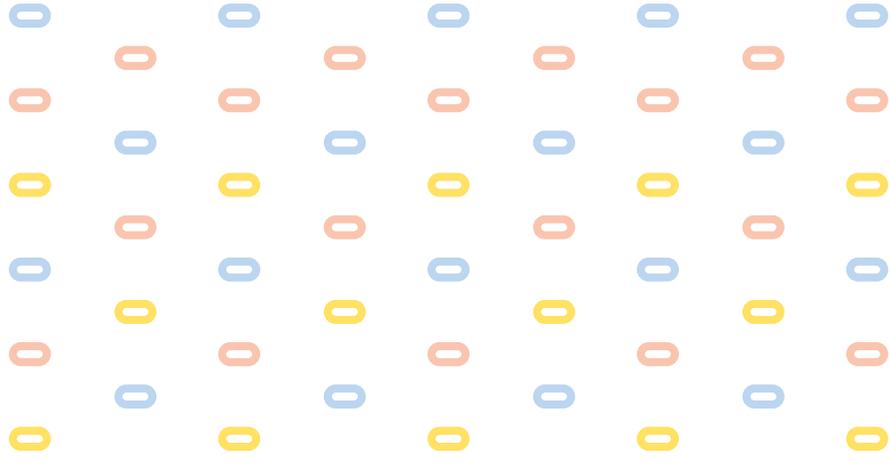

Discharge Spout with Protection Flap

Infrastructure

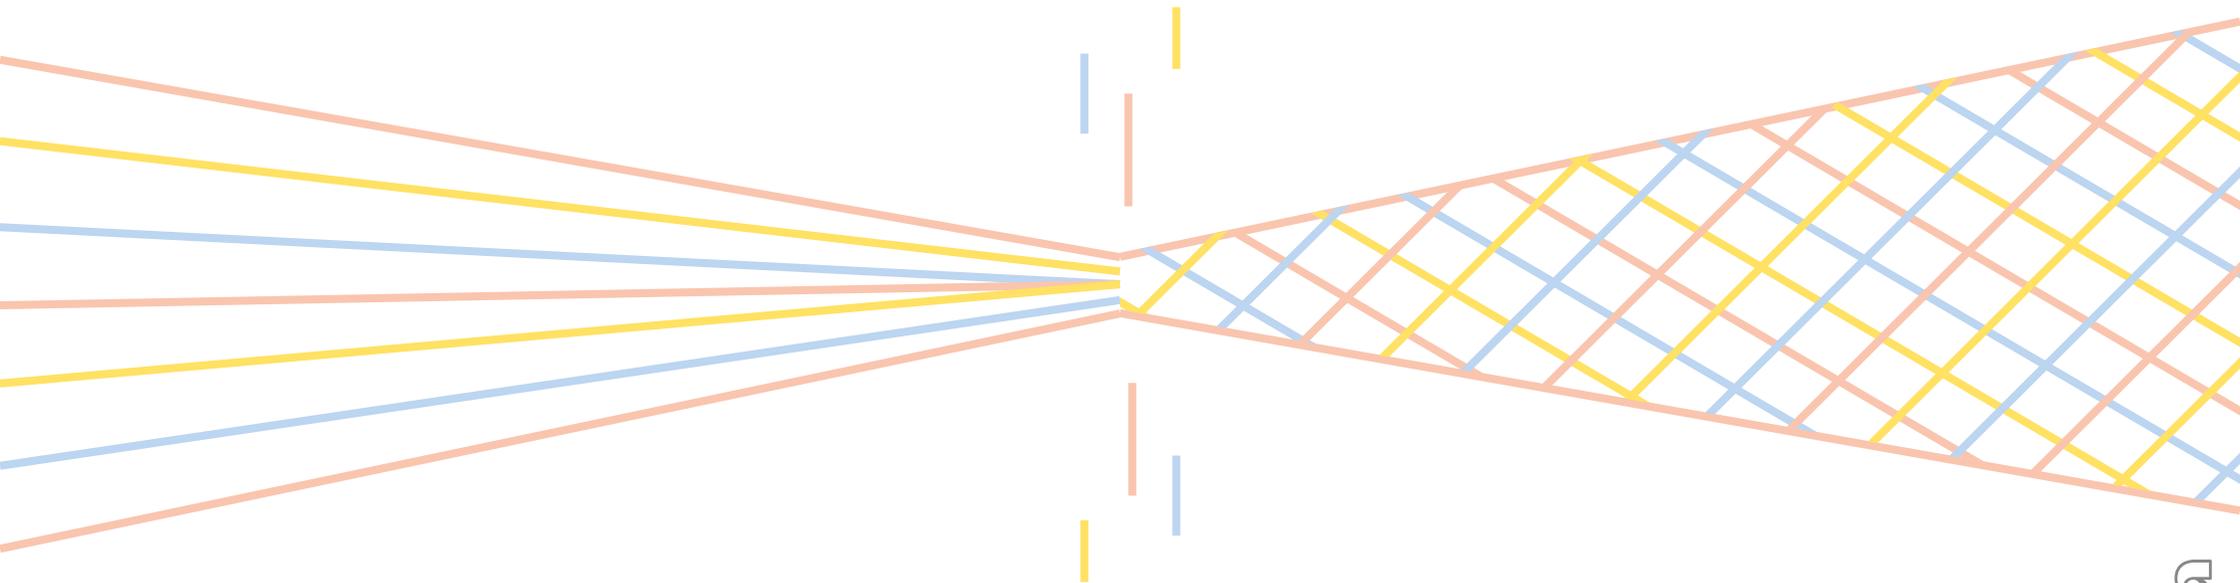

We have a manufacturing facility located in Udaipur, Rajasthan (India) on a land admeasuring 80,000 sq. ft. with a constructed area of 65,000 sq. ft

We have two tape plants and one lamination plant. We have Nova-6 Looms and LSL-6 for making fabric with width upto 75 cm and HDN-6 and LSL-620 looms for making wider width fabric.

We have 6 colour and 4 colour online printing machines, manual printing machines, wider width printing machine, online cutting and stitching machines, wider width cutting machine and manual stitching machines.

Quality Control

We believe in cutting the mustard, not corners. The extensive internal quality inspections and quality control audits ensures that only the best quality product reaches the customer.

Our quality control process is spread across various stages of manufacturing right from the raw material section upto the packaging section. Thorough quality checks are undertaken at the weaving section, printing section, lamination section, cutting section, stitching section, sorting section and at the final packing section.

For inspection and quality control audit, we have the latest technology and instruments which includes Universal Tensile Tester (UTM), Dial Gauge Meter, Micrometer, GSM Cutter, Wrap Reel, Water-Bath, De-lamination, Muffle Furnance, Hot Air Oven, Environmental Condition Simulation Chamber, Visibility Chamber, Electronic Balance.

Petrochemicals

We are the authorized Del Credere Associate (DCA) of Indian Oil Corporation Limited (IOCL) (Polymer Division) for the state of Rajasthan. We are operating the DOPW (Dealer Operated Polymer Warehouse) of IOCL in Udaipur (Rajasthan).

We are in charge of marketing and distribution of IOCL polymer products such as Polypropylene (PP), High Density Polyethylene (HDPE) and Linear Low Density Polyethylene (LLDPE) in the state of Rajasthan. Indian Oil Corporation Limited is one of the largest commercial producer of petrochemicals and petroleum products in India. It is India's largest Central Public Sector Enterprise and considered as a "Maharatna".

This semi backward integration helps us to predict future price trends of our raw materials. This gives us a significant advantage over our competitors. We also provide price guidance to our customers for better procurement planning.

The Team

Our team has a perfect blend of experience and young talent. The management of the Company is taken care by Mr. Hakim S. Tidiwala, Vice-Chairman of the Company and Mr. Asad Daud, Managing Director of the Company, under the supervision of the Board of Directors.

The management is assisted by professionals and industry experts at various operational levels of the Company.

Hakim S. Tidiwala

Vice-Chairman

An industry veteran, enthusiastic and energetic individual, Mr. Tidiwala has a rich experience of more than 25 years in this industry. His large reservoir of industry experience assists the Company to catch on the trends in the market.

Asad Daud

Managing Director

A young entrepreneur with innovative and future-centric thinking, Mr. Asad Daud holds a Master's Degree in Accounting and Finance from the prestigious London School of Economics, London. His financial aptitude and newfangled approach are fostering the future expansion strategy of the Company.

Our team has been our pillar of strength and has been instrumental in the growth of our Company.

Our Customer Base Across the Globe

We have exported our products to more than 19 countries and counting..
